

FORESTHILL FIRE PROTECTION DISTRICT

ANNUAL REPORT

2019

ABOUT

The Foresthill Fire Protection District (FFPD) was created in April of 1946, after over 15 years of service by the Foresthill Volunteer Fire Department. The District exists in order to provide local services relating to the protection of lives and property of the community members as well as visitors to the Foresthill area.

The Foresthill Fire Protection District is located in the foothills of Placer County, east of Interstate 80. The District provides all risk fire protection services including advanced life support and ambulance transport to a geographical area comprised of approximately 89 square miles. This 89 square mile district has a permanent resident population exceeding 6900 community members that is bolstered by visitors to the areas many recreational opportunities including lakes, camping, hiking, cycling, trail riding and whitewater rafting. The District also provides advanced life support services, rescue services and wildland fire protection to an expansive area of the US Forest Service and Bureau of Land Management lands through auto aid agreements and contract. The auto aid and contract areas account for an additional 411 square miles for a total coverage area of approximately 500 square miles.

The District provides fire protection, advanced life support transporting ambulance service, rescue services, basic hazardous materials response and other services relating to the protection of lives and property within our jurisdictional boundaries, as well as providing assistance to neighboring communities when a need arises. The District is governed by a five member Board of Directors (Board) elected by the general population residing within the district boundaries. Board members are elected for staggering four-year terms. The Board has continually provided this service to the extent possible based on given budgetary restraints. The Board appoints the Fire Chief as the lead manager of the District. The Fire Chief operates the District with two (2) Part-Time Assistant Fire Chiefs, one (1) District Manager, one (1) part-time Administrative Assistant, three (3) Full-time Captain positions, three (3) Engineers/Company Officers, five (5) Firefighter Paramedics, and (4) part-time paid Firefighter Paramedics.

Currently the District operates with (2) Type 1 fire engines (pumpers), (2) Type 3 brush engines, (1) rescue squad, (1) water tender, (2) staff vehicles and (3) ALS ambulances from its three strategically located stations within the jurisdictional borders. Calls for service in the 18/19 fiscal year totaled nearly 608, with the largest percentage of these as requests for medical services.

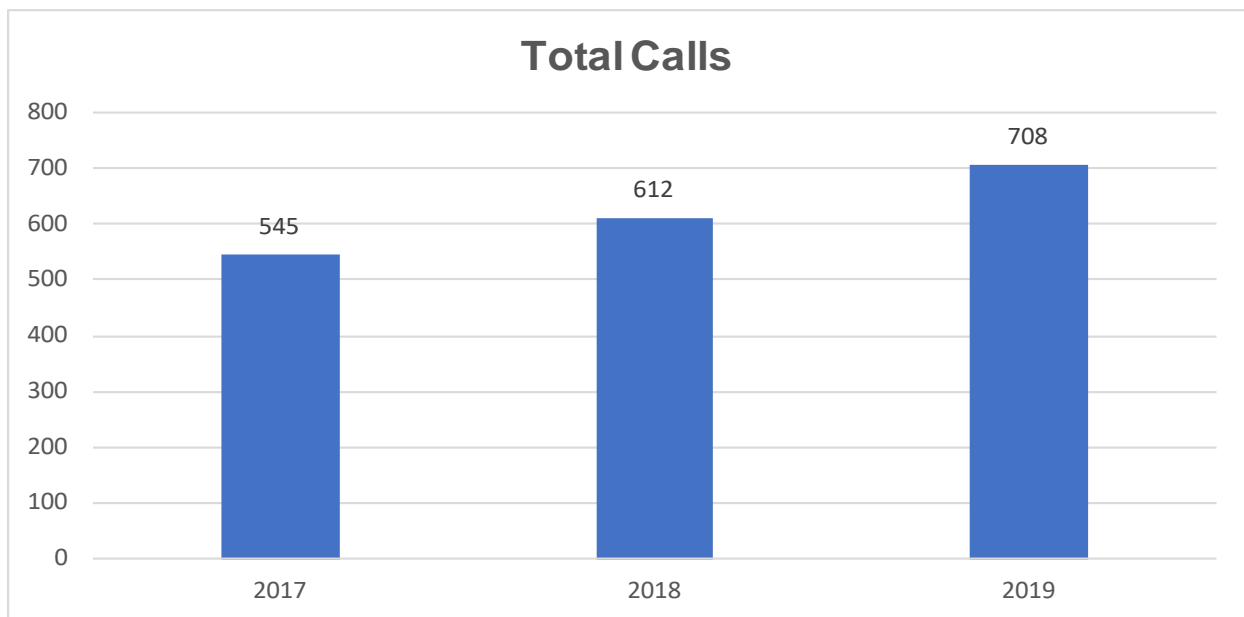

Population 6,900 people and approx. 1800 Residential Structures

Area Covered 500 Square Miles

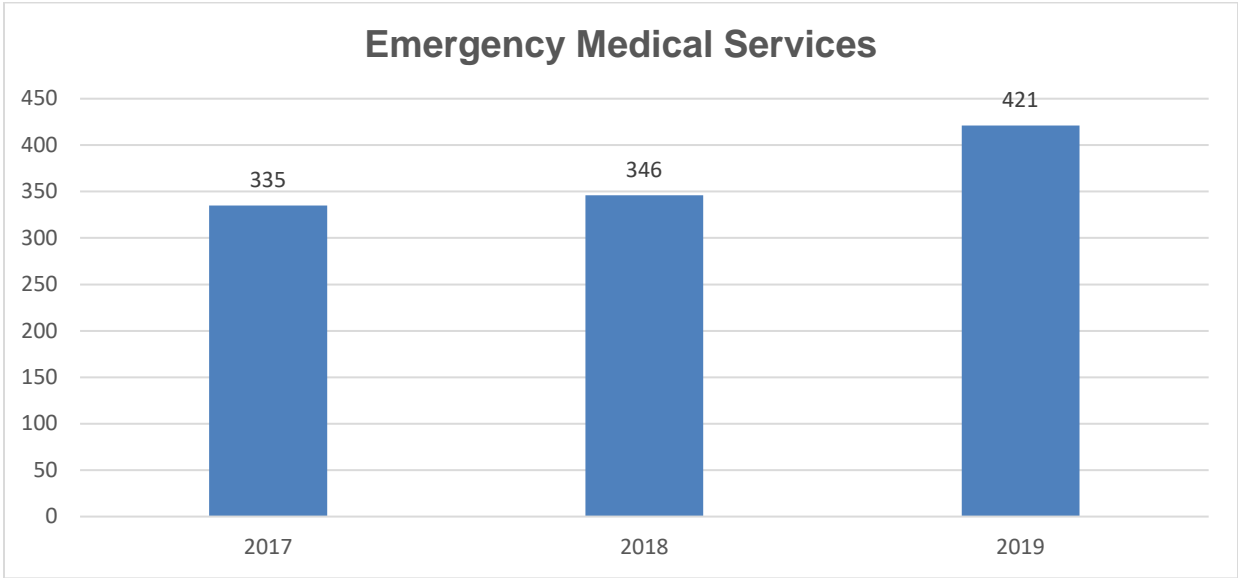

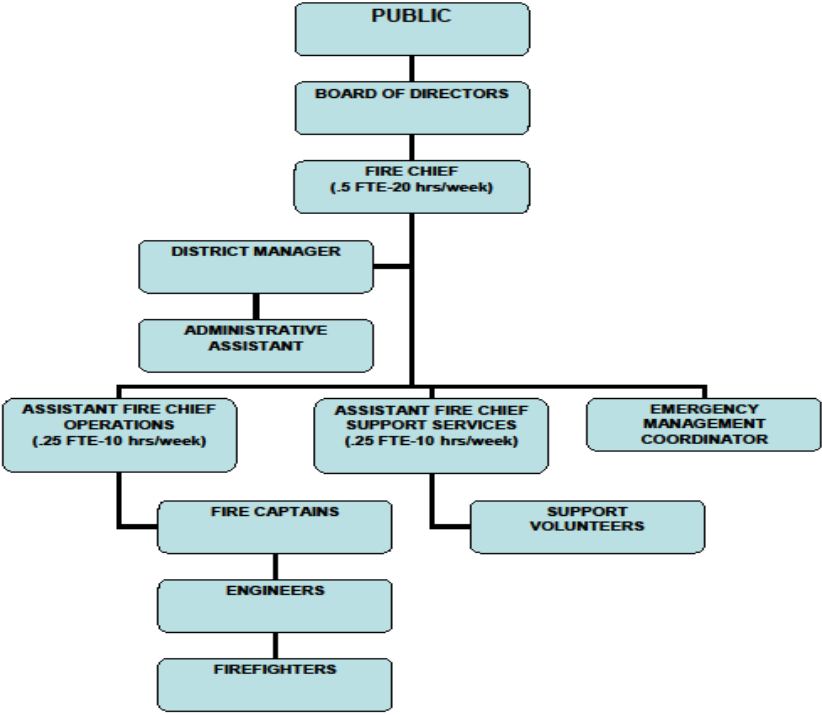

ISO rating 03/3Y

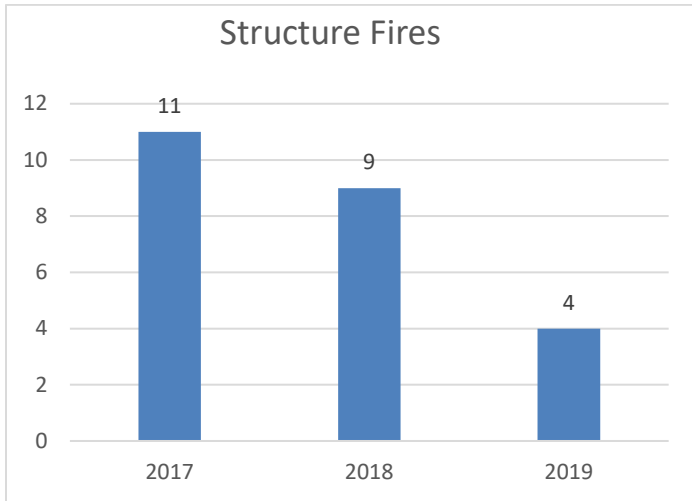

GOALS

- Place new Type 1 Fire Engine into Service
- Purchase a used Type 1 Engine into Service
- Hire and Train New Personnel
- Develop a budget to include additional positions
- New Memorandum of Understanding with IAFF Local 3800
- Enhance hiring practices and minimum standards
- Strengthen and diversify our tax base
- Explore other potential revenue sources
- Expand digital communications and capabilities (phone system, web site, Information Technology)
- Develop and sustain public/private partnerships
- Explore options to replace Medic 90 Cab and Chassis
